

HYDROPROCESS2012

4th International Seminar on Process Hydrometallurgy

11 - 13 July 2012

Sheraton Santiago Hotel & Convention Center, Chile

Sustainable Processing of Metallurgical Resources

HYDROPROCESS 2012 has been designed to provide an International forum where hydrometallurgical professionals can analyse and discuss recent innovations and developments related to the wet sustainable processing of ores and materials. Hydroprocess 2012 is a prestigious Seminar considering the good response received for papers' submission and the large variety of subjects, companies and home countries that the authors represent

OBJECTIVES

- Promote the exchange of knowledge and experience in the design, planning and operations of hydrometallurgical plants;
- Discuss emerging developments and identify the best practices and methodologies in process hydrometallurgy;
- Analyse criteria for design and evaluation of industrial plant projects;
- Promote development of an interdisciplinary international network for technical collaboration and exchange among professionals in hydrometallurgy.

AREAS OF INTEREST

Sustainable Bio & Processing for Ores and Materials • Gold, Silver and Value Metals Hydrometallurgy • Ore and Concentrate Leaching, Studies, Operations and Processes • Solvent Extraction • Developments and Innovations in Hydrometallurgy • New Projects, Plant Expansions and Industrial Case Studies.

**REGISTER FOR
THE SHORT
COURSE!**

TECHNICAL VISIT

Tuesday, 10 July, 07:00 - 17:30h

Visit División El Teniente, Codelco, Chile

SHORT COURSE

Those who are registered for Hydroprocess 2012 are eligible to receive a discount when registering for the course.

Wednesday, 11 July, 08:00 - 17:30h

COURSE: Improved techniques for heap leaching copper minerals

INSTRUCTOR: Carlos Avendaño, Terral, Chile

LANGUAGE: Spanish

PRELIMINARY PROGRAMME

Hydroprocess 2012 technical programme will consider oral and poster presentations. Seminar official language is English, however, English-Spanish-Portuguese simultaneous interpretation will be available in all sessions. Oral presentations can be made in any of these three languages.

The Hydroprocess 2012 proceedings contains 46 abstracts and 37 papers written by authors from 16 countries: Australia, Azerbaijan, Brazil, Canada, Chile, Colombia, Ecuador, Germany, Iran, Italy, Mexico, Peru, South Africa, Sweden, United Kingdom and USA. The papers have been organised by the areas of interest. We also have confirmed 5 plenary presentations, a technical visit and a short course.

The list of approved articles organised by areas of interest can be found in the Programme section of our website.

STEERING COMMITTEE

CHAIR

Sergio Castro • BHP Billiton, Chile

CO-CHAIR

Virginia Ciminelli • Universidade Federal de Minas Gerais and INCT-Acqua, Brazil

CO-CHAIR

Nathan Stubina • Barrick Corporation, Canada

TECHNICAL COORDINATOR

Jesús M. Casas • Universidad de Chile

ENQUIRIES

COORDINATOR

Fabiola Bustamante
